

Materials

Glass vase
Tissue paper hearts
Scrapbook paper hearts
Cord
Foam brush
Decoupage glue
Twigs

Instructions

1. Clean and dry the vase to remove any dirt or oils. Brush a very thin layer of the glue onto a section of the vase. Place tissue paper hearts on the glue.

2. Repeat a small section at a time until you have as many of the hearts glued on as you want.

3. Brush a thin layer of the glue over the whole vase to seal it. Be careful not to tear the hearts. The wet tissue paper will be delicate. Let dry completely until the glue has turned clear.

4. Take 2 of the scrapbook paper hearts of the same size. Glue the end of one cord between the 2 hearts. This will form a hanging cord. Repeat for all of the hearts and let them dry completely.

5. When everything is dry, place the twigs into the vase and arrange the branches however you wish. Using the cords, tie the hearts onto the branches so that they are hanging down. Trim off any excess yarn ends.
